

ELEMENTS

Metallic Specialty Finish

HARNESS THE POWER OF THE ELEMENTS.

ELEMENTS liquid coat is a factory-mixed architectural wall coating that provides a coloured, decorative surface with a metallic, sand effect. This unique finish coat is easy to install, and makes for a great feature wall and accent material.

ELEMENTS is best applied over a smooth base coat (Adex SURFAGLAZE or SURFAGLAZE XT), smooth finish coat (Adex SONORA), or prepared interior drywall.

ELEMENTS is available in three standard colours; Gold (Ag), Silver (Au), and Copper (Cu).
